One of Sioux Chief's products that work great for us is the **825 Shower Drain**. We went to this drain after some of the other brand drains had failed. The thing about regular drains is if the putty dries out or the silicone breaks loose and there is a leak, and if the leak is in the second story, you're going to be cutting out someone's ceiling to fix the shower drain plus sheetrock repairs. With the Sioux Chief 825 Shower Drain, you can reseal it from the shower drain hole, not cutting sheetrock, so you're in and out of the house fast!

The great thing about the Sioux Chief Company is that they listen to the plumber. They make high quality parts that really work.

As a company, their people are second to none. They work hard to get your order out the same day you call. They're very knowledgeable and friendly."
