Mr. Michael Foster  
Sioux Chief Manufacturing Company  
24110 South Peculiar Drive  
Peculiar, Missouri 64078

Dear Michael,

After seeing a demo of the Sioux Chief Ox Box by our local rep., Exceptional Product Sales, LLC, we have decided to standardize on this product for all future projects where laundry boxes are needed. Aside from the valued time/labor savings the product obviously gives us, it is the overall value we recognize in that the Ox Box is stronger, cleaner to install and test & more aesthetically appealing to our customer. We applaud the efforts of Sioux Chief in providing a box to our industry that addresses the limitations of all previous alternatives available to us in the past. **THIS BOX SIMPLY HAS WHAT NO OTHER BOX PROVIDES!!!!**

The Ox Box is so impressive that we have heard compliments from contractors of other trades. Our general contractors like the flexibility of being able to provide a truly custom install with supply and drainage boxes on separate walls allowing for creativity in the layout of the entire laundry room. The builders also like the contemporary trim package that snaps on securely no matter what depth wall material (drywall) is used or if tile is used on the walls. Because the Ox Box provides the plumber the ability to install the supply and drain boxes in separate stud cavities, we do not have to drill through a stud to install our p-trap, making for a more structurally sound building liked by builders and inspectors alike. Drywall contractors like the fact that they no longer have to worry about breaking the body of the laundry box because the Ox Box is made of impact resistant ABS not brittle plastic.

In conclusion, the Ox Box provides solutions to age old problems that we as plumbing contractors had learned to live with because a better product was not available. Now a completely different and "better mousetrap" in the Ox Box and we intend to use it. Once again Sioux Chief has displayed creativity and ingenuity in developing practical use products for the plumbing professional.

Kind Regards,
