Attention: Wade Long

Mr. Long In regards to the Ox-Box we are very pleased with the capability of plumbing From the top or bottom with the water service or if we have a space constraints problem We can stack them on top one another. This is a big asset for us as a plumbing company And a selling tool for our builders as they are constantly looking for ways to utilize the Most out of the space in these laundry rooms. The one issue that our people would like To be addressed is that if they would have clips on the top and bottom of the Ox-Box with arrestors that way we can secure the boxes with the bar to the studs and they wouldn't move period. Thanks for the support from your company as nobody has a Comparable product out in the market and that is one of the reasons we do business With your organization.

Thanks,

Steve Conley
