P.O. BOX 426 - 108 OLD NC 55 EAST - DUNN, NC 28335
(910) 892-8183 - FAX (910) 892-4698

To Whom It May Concern:

In regards to the Sioux Chief product, the Ox Box washer and ice supply boxes; I, as a wholesaler in the plumbing supply industry, have been selling supply boxes for over 20 years. I have yet to see a comparable product such as the Ox Box for its versatility and practicality. Until this product was introduced, the contractor was limited to one basic installation type (beside the rough stud). The Ox Box can be installed in a number of different ways: splitting the stud, stacked on top of each other, separated and even on two different wall surfaces. So to summarize, I have not seen this type of product in any form until now.

Thanks for your time and consideration,

Jason W. Carpenter
