October 12, 2007

RICHIE,

JUST WANTED TO SAY HOW PLEASED I AM WITH THE NEW OX BOX. THE EASE OF INSTALLATION AND THE VERSATILITY OF THE BOX HAS WORKED OUT WELL ON THE PROJECT I AM WORKING ON. WE HAVE BEEN INSTALLING THE BOXES OVER THE STUD AND CATCHING THE WATER OVERHEAD. THIS HAS BEEN WORKING OUT GREAT.

ALSO THE ATTRACTIVENESS OF THE FACEPLATE IS APPEALLING TO THE EYE.

WHAT I AM REALLY PLEASED ABOUT IS THE ADDITION OF THE FIRE RATED OX BOX. THIS WILL SAVE ME A GOOD DEAL ON MATERIAL AND MANHOURS. IN THE PAST WE WOULD USE A METAL WASHER BOX, WHICH WE WOULD HAVE TO ADHERE FIRE ROCK ON FIVE SIDES OF BOX THEN WE WOULD HAVE TO SEAL THE JOINTS. NOW ALL WE HAVE TO DO IS SCREW THE BOX TO THE STUD, PIPE IT UP AND WALK AWAY.

ONCE AGAIN SIOUX CHIEF HAS MADE ANOTHER GREAT PRODUCT THAT BENEFITS PLUMBERS BY SAVING TIME, WHICH MEANS SAVING MONEY.

RESPECTIVELY YOURS,  
RICHARD BEVERLY
