Customer Testimonial from:

Peter Valconesi
President
Highmark Manufacturing Inc.
Greeley, Co

"We started working with Sioux Chief about two years ago, they designed a copper **manifold** for our company to accommodate the high number of pro press valves we use on our product. Since we started using the manifolds we have decreased our labor cost by over 50% and increased our production by over 100%. I am thankful for the staff's cooperation and support at Sioux Chief and would highly recommend working with them to all manufacturers."
