SPECIFICATION

Sioux Chief 865 Series stainless steel edge guards shall be used where necessary with FastTrack trench drain channels. Edge guard shall be corrosion-resistant and provide protection of trench drain channel edge from impact, abrasion, and general wear. Edge guard shall work with any FastTrack grate style/material and create a more finished look for installations when using stainless steel or galvanized grates. Edge guards do not affect the load capacity of the grate.

MATERIALS

304 Stainless steel

INSTALLATION

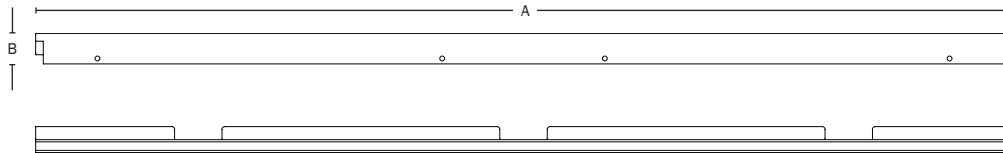

Edge guards must be installed before concrete is poured. Edge guards slide over top edge of the channel. Fasten to outside of channel edge with screws if desired.

DIMENSIONS

A: Length	36"
B: Height	1 1/8"
Thickness	0.025"
