

# New Product Announcement

---

**Subject:** OmegaPlate™ / OmniPanel™

**Date:** June 2019

Dear Valued Customer,

We are excited to share two new products with you ... the **OmegaPlate™** single valve outlet plate and the **OmniPanel™** dual valve outlet panel. Both products allow the contractors to install supply stops during the rough-in phase saving significant time during rough-in, reducing the number of touches setting trim as well as greatly reducing the chance of leaks associated with common compression stops.

Sioux Chief is known for innovation, helping the plumber save time and reducing risk associated with common plumbing installations. You can view product brochures, intro video and other product details at the following links:

[OmegaPlate](#)

[OmniPanel](#)

Like other select innovative products from Sioux Chief, the OmegaPlate™ and OmniPanel™ offer a guaranteed sale. Stocking distributors will also receive an attractive counter display. Your local representative will be in touch to schedule a time to go over the product details and share marketing materials.

Thank you for your continued support. We look forward to working with you to market these new products.

Sincerely,

Rex Baer  
Executive VP  
Sioux Chief Mfg
