

ACCESS PANEL WITH FRAME

»» 970 SERIES

SPECIFICATION

Sioux Chief 970 series access panels shall be installed where necessary to provide access to fixtures installed behind finish walls. Frame shall be attached with construction adhesive directly to either front of finish wall (visible frame), or back of drywall (visible rim). Back mounting of frame shall be used with 5/8" drywall only. Panels shall snap-attach flush with frame and be textured to allow paint or wallpaper application.

MATERIALS

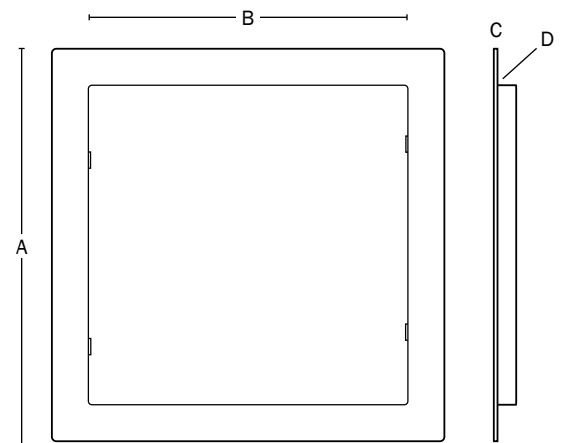

Frame: ABS (white)

Panel: ABS (white)
