Properly position tub spout elbow and hold copper fitting in place while tightening the brass swivel nut to tub/shower valve.

**Caution:** Do not swivel or move the tub ell after tightening is complete.

**Caution:** Do not overtighten nut.

**Caution:** Do not use pipe thread sealant or pipe tape on threads.

**Caution:** Failure to follow the instructions above may cause damage to the gasket and/or interfere with a proper connection.

⚠️ **WARNING:** Cancer and Reproductive Harm. [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)
